Dear Committee Members

We have lived at 949 Church Street in Fenwick for 9 years after moving here from B.C. in 2010. Our property butts up to the [REDACTED] property on the north. One of the things that we have appreciated about our neighbourhood is the mix of new and old residences and the harmony of the homes. Despite a wide variety of styles and ages, individual properties show care and consideration in the way the buildings are sited, grouped, and maintained. The efforts of each property owner contribute to the pleasing nature of the whole neighbourhood.

[REDACTED] built his house many years ago in a colonial style that speaks of taste, refinement, and permanence. His house is appreciated by everyone who sees it, and it is an important part of our neighbourhood, enhancing all of our property values. It would be more than a shame if he were not permitted to build a complementary storage building but were forced to conform to an incomprehensible bylaw that does not respect aesthetics or neighbourhood sensibilities. We would much rather see a building like [REDACTED] proposes than something that fits a bylaw written by someone with no stake in our neighbourhood and no understanding of it. We support [REDACTED] request for relief from the height restriction.

Yours truly,

Mike and Jocelyn Angus
