Subject: File #A40/2021P Electronic Hearing Dec 7th questions and registration.
Date: Wednesday, November 24, 2021 2:46:40 PM

Weve just moved into [REDACTED] Concord Lot [REDACTED] so have a few questions it's receiving the notice of Public hearing on Dec 7 which we'd like to register for under Larry Moote and Linda Stokes

[REDACTED] and [REDACTED]

Questions

What will 3 lots be for. 3 detached homes ?

What is Part 4 of lot being used for ?

Are they serviced lots or do they need to add services to those 3 lots

Where do the Sewer easements go at the end of Part 8 and how are they constructed ?

What is the capacity of the sewer easements all flowing down behind concord home lots from the new Canberra developments ?

Normally new developments create a catch basin for water / sewer runoff. Why is there no indication of one for Canborro developments?

Where are the sewer easements for the 3 lots in question and are we getting to a point where the sewer easements will be over whelming the end area of Part 8

Linda Stokes and Larry Moote
