

## **Cannabis Control Committee (CCC) Year End Update 2021\***

The Town of Pelham's cannabis Official Plan Amendment (OPA) and Zoning Bylaw Amendment (ZBA), as well as its Odorous Industries Nuisance Bylaw (OINBL), were designed specifically to ensure public processes and define policies and standards that address harmonious co-existence with cannabis and industrial hemp facilities and related uses in the Town.

Our local cannabis companies appealed the OPA/ZBA to the Ontario Land Tribunal (OLT) in late summer 2020. The OLT Hearing is set to take place on January 24-27, 2022. The OLT may approve the OPA/ZBA or may indicate that amendments are required. The public can view the OLT Hearing virtually or by telephone. Connection information is provided below.

<https://global.gotomeeting.com/join/287108853> Access code: 287-108-853 or call in at 1 (888) 455-1389.

Our local cannabis companies also filed an application to Quash the OINBL with the Superior Court of Justice. A date for the first hearing has not been established as of this date.

These are ground-breaking actions and the OLT Hearing results will help define the 2022 action plan and continued effort by the CCC to address Pelham's concerns as related to cannabis and industrial hemp and other odorous industries within the Town.

**Sincerely**

**The Cannabis Control Committee**
